Key European Battery Supply Chain Hubs

With up to 38 gigafactories in development across Europe and with an annual market estimated to be worth 250 billion Euros from 2025, join the Battery Tech Expo European Roadshow where you'll have the opportunity as an exhibitor to showcase your products and services to key players developing a sustainable European battery supply chain that will serve the automotive sector for years to come.

We'll be travelling to key European battery supply chain hubs including:

- Gothenburg, Sweden
- Prague, Czech Republic
- Lille, France
- Alicante, Spain
- Scarmango, Italy
